# Terre Haute Express

A newspaper recognized by advertisers as having an extensive circulation supported by a clientele of intelligent readers.

The clean cut methods of the express, the absence of sensationalism and its concise, comprehensive manner of presenting the latest foreign and local news commend it to the home, and appealing as it does to the most prosperous classes of men and women—the most desirable customers for any good thing—those who have money to spend—it more than satisfies advertisers, who demonstrate their appreciation of its results by renewed contracts. Established in 1823. The pioneer paper of the Wabash Valley. The 79th year of its publication finds it fully apace with the times—improvement each succeeding month is the motto of an aggressive management. An interesting paper, eager readers and years of existence, lends prestige to the express and credits its value as an advertising medium. : : : : : : : :

# INTRODUCTORY.

We take pleasure in presenting to our patrons the Thirtieth Volume of the Terre Haute City Directory and Fifth Volume of the Vigo County Directory.

In preparing this, our fourteenth issue of the Terre Haute Directory, we have labored under many difficulties and unavoidable delays over which we had no control. It has always been our aim (and our previous works, as well as this one, will bear us out in the assertion) to issue works that are reliable and a credit to the city. We feel confident we have succeeded.

Twenty-three thousand and fifteen names will be found in this directory, which, if multiplied by only two, gives us a population of 46,030. This also includes the suburbs. The list of names show a gain of over 3,000 since our last issue. At least four-fifths of this gain has been made in the past year.

Since our last issue the city has been re-numbered. In this issue we have used nothing but the new numbers as designated by the city engineer. Although all the old numbers have not been changed according to the ordinance, the changes should be made as soon as possible, thereby saving much trouble and annoyance.

Our beautiful city has made great strides the past two years. Too much credit cannot be given to our Commercial Club, which is composed of our best and most wide-awake business men. A large number of industries have been added to our already large list, among the number are four glass factories, rolling mill, paper mill, match factory, stamping and enameling works, cooperage works, planing mills, glass mould works, etc., etc., while our other industries have increased their capacities and have enjoyed increased prosperity. The Southern Indiana Railway and Brazil Inter-Urban are new and valuable acquisitions. Our coal, shale, railroads and other natural advantages are just beginning to be appreciated by the manufacturing world, and we predict the next ten years to be the most prosperous Terre Haute has ever known.

Besides our new industries over one thousand new and handsome residences have been erected, also many handsome business blocks and office buildings, and contracts have already been made for a large number to be erected this spring.

Our new city map will be found up-to-date, also showing the location of all the new industries, etc. The County Map will be found in back part of work with the County Directory.

As heretofore, to advertise the city and for the benefit of our advertisers, we will place a copy of this work in every hotel within a radius of sixty miles of Terre Haute.

Thanking the public for their patronage, and hoping an increase of same for our next issue, we remain,

Very truly,

CHAS. O. EBEL & CO.
